

**IFTF Board Meeting
July 26, 2025 Minutes**

Present: Mark Sample (minutes), Justin Bortnick, Doug Valenta, Kofi Oduroi, Albert Bassili, Doug Valenta

1. Itch has been pressured by its payment processors to remove adult content for sale. A question arose in Steering if IFTF and the IF Archive should be/could be a haven for adult IF content. The question on the table is "Does IFTF want to make a statement about this, or stay under the radar?"
2. Changing Article 3.07 of the by-laws which says there will be an annual meeting every second Tuesday in August at 2pm. **Action item: new wording of this article of the by-laws that recognizes this meeting as a summit including board members, committee heads, program chairs, etc. We'll send this around in Slack for voting.**
3. Questions arose about the U.K.'s new online safety act. Justin will reach out to Heidi, our lawyer, to see what our exposure might be.
4. Update on banking. Our new bank is M&T Bank, which will be more accessible to us and has a POS system if we want to use that. And our PO Box is also updated, to be more accessible for Colette.
5. Possible topics for the summit: SWOT analysis, potential updates to IFDB/IF Archive
6. Update from Justin on Japan's Game Preservation Society, which has a bunch of games in its archives but cannot actually use them, lend them, or do anything else with them. Its president was interested in hearing how IFDB and the IF Archive work.
7. Update on NarraScope Financials
