

IFTF Board Meeting
September 27, 2025 Minutes

Present: Albert Bassili, Justin Bortnick, David Cornelson, Mark Sample (minutes), Doug Valenta

1. Process of shaping summit notes into SWOT analysis to send in (need headers, TOC, prioritizing—maybe along the lines of Urgent to Trivial, perhaps add an Executive Summary). Question: should the SWOT analysis be public
2. Should we issue a policy on an honorarium? We are leaning toward not issuing a public statement, but for Justin to email the 20-25 speakers at NarraScope 2025 about the honoraria policy. For the 2026 conference and moving forward, make sure the messaging is clear
3. Discussion about the IFDB and language fields: how often is the API used to grab games from Itch?
